# *Classic styles for modern living.*

---

In our Autumn 2024 release, we proudly present a collection that epitomises modern sophistication. This season, we introduce the Dartmoor collection, with a sleek and contemporary slim shaker door designed to make an impression in five high-quality, soft-touch matt finishes.

Our latest products feature a variety of chic colours and textures. The popular Portland Stone, earthy, elegant, and versatile, is now available across multiple fitted and vanity collections, alongside new woodgrain finishes such as Weathered Oak in Bowland and Cheviot, and Light English Oak in Aurelia.

Additionally, our new natural brass handle families – Antiguo, Renaico, and Morella – are thoughtfully designed to enhance the appeal of your furniture, further enriching our hardware lineup in 2024.

For those who prefer classic aesthetics, our new range of curved vanities in Pentland offers a timeless addition. Bold and traditional, these vanities combine elegance with functionality, seamlessly integrating into the wider Pentland collection.

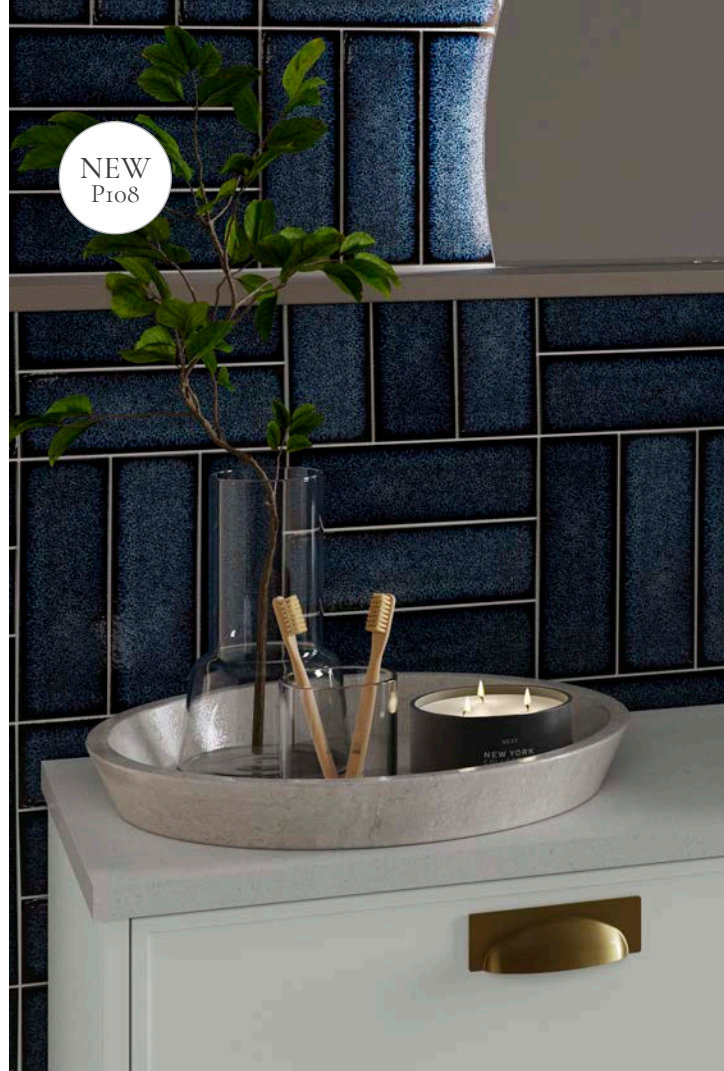

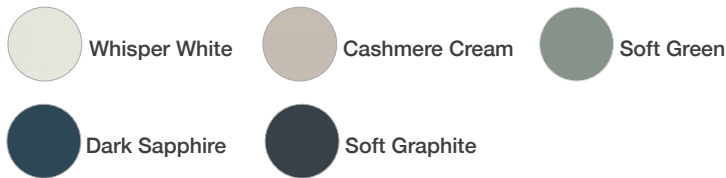

In this latest chapter, we embrace modern design while honouring the beauty of classic styles. Explore the pages ahead to discover everything that our Autumn 2024 collection has to offer.

# Dartmoor: The traditional shaker, reimagined.

Introducing our latest fitted furniture range, the **Dartmoor** collection offers a contemporary take on the classic shaker for a pared-back and timeless look. Featuring a sleek 9mm slim frame edge, its tight linear styling and minimalist design represent the traditional shaker style, reimagined.

Dartmoor is available across our full range of fitted furniture and vanity cabinets, precision wrapped in high-quality, soft-touch luxury vinyl for a smooth, durable, and long-lasting finish.

## Available in...

## Expanded Pentland collection

The **Pentland** collection has seen sophisticated updates, ensuring it remains a timeless choice. The **Pentland Curved Vanity** introduces a traditional design, effortlessly combining form and function with its smooth curves and classic aesthetic. It is available with a **two-drawer** or **two-door** central unit, along with left, right, or both curved end units. The **Pentland Solid Surface Worktops with Undermount Basins** are designed to fit the new curved vanity units, featuring durable surfaces and integrated basins for a clean, uncluttered look.

# Fitted Furniture Guide

Our fitted furniture is designed with simplicity and functionality in mind. This brief guide will walk you through the straightforward steps to assemble a run of fitted furniture for your bathroom.

When you order fitted furniture, the unit carcass is the foundation – the core pre-assembled structure. Along with the carcass, you'll need fascias, the front panels that define your furniture's external appearance, end panels covering the sides of the carcass for a seamless look, and plinths, concealing the space underneath the unit. Some collections may also offer decorative elements that can be added to enhance the overall aesthetic of your furniture.

When you order using a unit kit code, everything you need is included. The pre-assembled carcass simplifies the installation process. Fascias, end panels, and plinths are then applied, providing a refined finish to your fitted furniture.

## Ordering Fitted Furniture

When ordering, notice that each unit code has two asterisks (\*\*). To select your finish, replace the asterisks with the finish code found at the top right of the pricing page. This method ensures that the correct finish fascia panels are automatically included when ordering complete units.

Alternatively, for individual components, refer to the Fitted Furniture Breakdown on page 368. Ensure you specify both the carcass finish code and fascia finish code when ordering.

## Example

In the example below, the WC unit from our Brecon (BR) collection has a code displayed with two asterisks.

Therefore, if you require the unit in Brecon (BR) High Gloss White (Finish code: H), you would make a purchase using the code: 4226BRH (4226 + BR + H)

### Basin Units - One Door

Size (W x D x H)mm	Code	Price	Carcass	Upper Panel	Door
400w x 303d x 811h mm	4401BR**	£524.00	4036	2040	5047
400w x 218d x 811h mm	4201BR**	£524.00	4036S	2040	5047

\*\* For High Gloss White - H would replace the two asterisks to complete the order code.

# Vanity to Match Fitted Furniture

Our Vanity to Match Fitted Furniture collections are designed to standalone or be used to complement our larger Calypso fitted furniture range, offering versatility in your bathroom design.

This guide will walk you through the simple steps to order and assemble your vanity unit for a stylish bathroom upgrade.

## How to Order:

### Choose Your Unit:

Browse the **Vanity to Match Fitted Furniture** section of the brochure to find your perfect vanity unit. When you order using a unit kit code, all of the parts that you need for assembly are included.

### Select a Finish:

Each collection is showcased in one finish, with all available finishes listed at the top right of the collection pages. Each unit code in the **Vanity to Match Fitted Furniture** section of the brochure is followed by two asterisks (\*\*). Replace these asterisks with the finish code located at the top right of the pricing page to find the complete code for your desired finish.

### Add a Basin:

Compatible basins are listed below each vanity and may fit slightly wider than the unit.

The sit-on basins shown are the recommended size and require a worktop. All sit-on basins are universally compatible, but ensure your chosen basin fits your unit's dimensions.

Some vanity units need specific worktops, which are available on the collection pages.

For most basins with an overflow, you can change the colour of the overflow ring. For more information on basins, worktops, and overflow rings, refer to our accessories section starting on **page 322**.

### Add Accessories:

Vanity units are shown with taps, and if applicable, handles. All additional accessories can be found in our accessories section starting on **page 286**. Some collections offer additional elements to enhance the overall aesthetic or functionality of your furniture and these can be found in the collection pricing pages where available.

### Basins

Once you have selected a vanity unit you can find compatible basins listed below. Sit-on basins require a worktop and can be found on **page 322**.

### Taps and Wastes

Choose a tap to match your vanity, starting on **page 334**. All taps come with a colour-matched slotted waste.

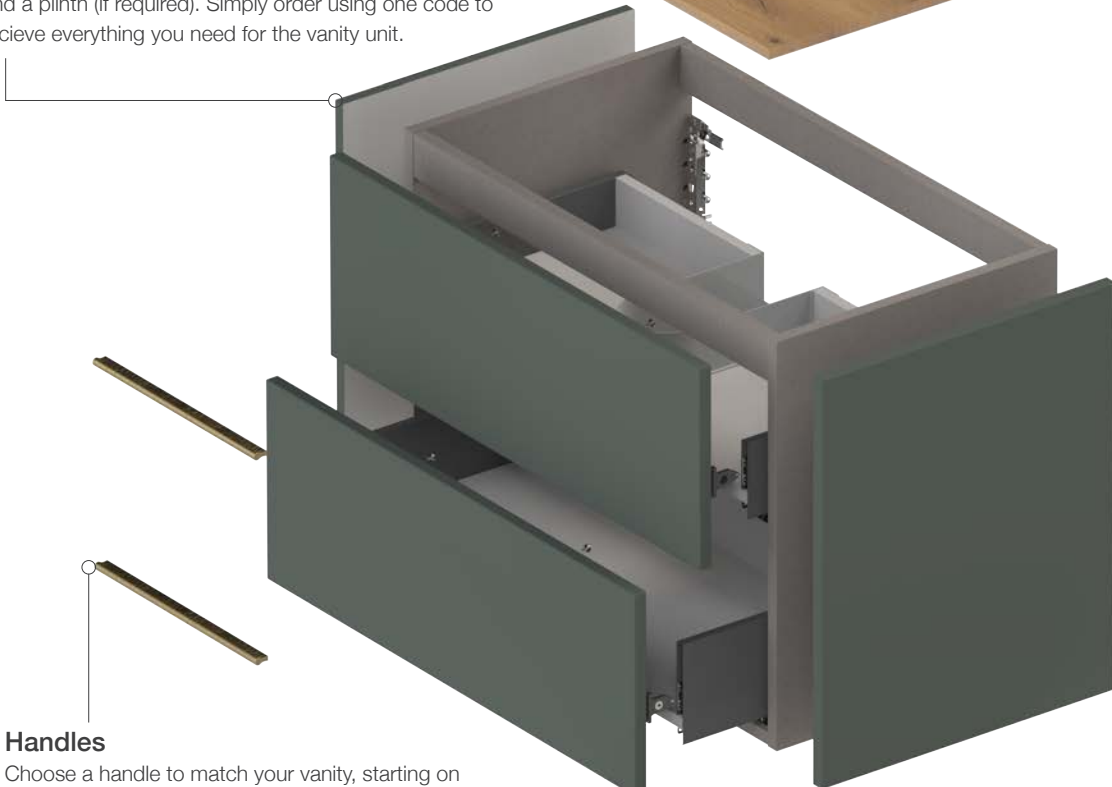

### Worktops

If you're using a Sit-on basin, you will need a worktop. You can find compatible worktops below each vanity unit. For universal worktop options see **page 308**.

### Vanity Units

**Vanity to Match Fitted Furniture** units includes a pre-assembled carcass, along with fascias, end panels, and a plinth (if required). Simply order using one code to receive everything you need for the vanity unit.

### Handles

Choose a handle to match your vanity, starting on **page 302**. Some vanity collections have an integrated handle and don't require a separate handle.

### Accessories

Some collections have unique features such as Bowland's inset metallic profiles. These additions can offer both style and functionality to your vanity. Explore collection pages for further details on accessories.

## Assembly Instructions:

Each vanity unit comes complete with a carcass, panels, soft close fittings, and wall fixings. The pre-assembled carcass simplifies the installation process, saving you time and effort.

We recommend using a professional bathroom installer for vanity unit installation to ensure optimal results. Once the carcass is fixed to the wall, apply your fascias, end panels, plinth, basin and other accessories to complete the look of your vanity.

To explore our full range of furniture and accessories, visit [calypsobathrooms.co.uk](http://calypsobathrooms.co.uk).

# Bowland

Bowland is stylish and elegant with its metallic inset profile which creates a flush, handleless design. This sophisticated design offers a range of matt finishes accompanied by matching end panels, or high gloss options with reversible end panels featuring glass-effect edging for an extra touch of refinement. Bowland's slab-style fascia is sleek and modern, complemented by soft-close hinges and runners, fixings, and a grey linen carcass for a complete look.

## Bowland Furniture Details:

Bowland features 18mm pre-assembled MFC carcasses with PVC edging, drilled and marked for fittings. Fully adjustable all-steel soft-close hinges for doors and 4-way adjustable soft-close runners to drawers. Carcasses require finishing with a metallic inset profile. All units come with a wall-fixing kit for safe installation.

The dimensions include a 700mm high carcass with a floor service void of 150mm rebated behind a 105mm plinth face and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

# Brecon How to Order

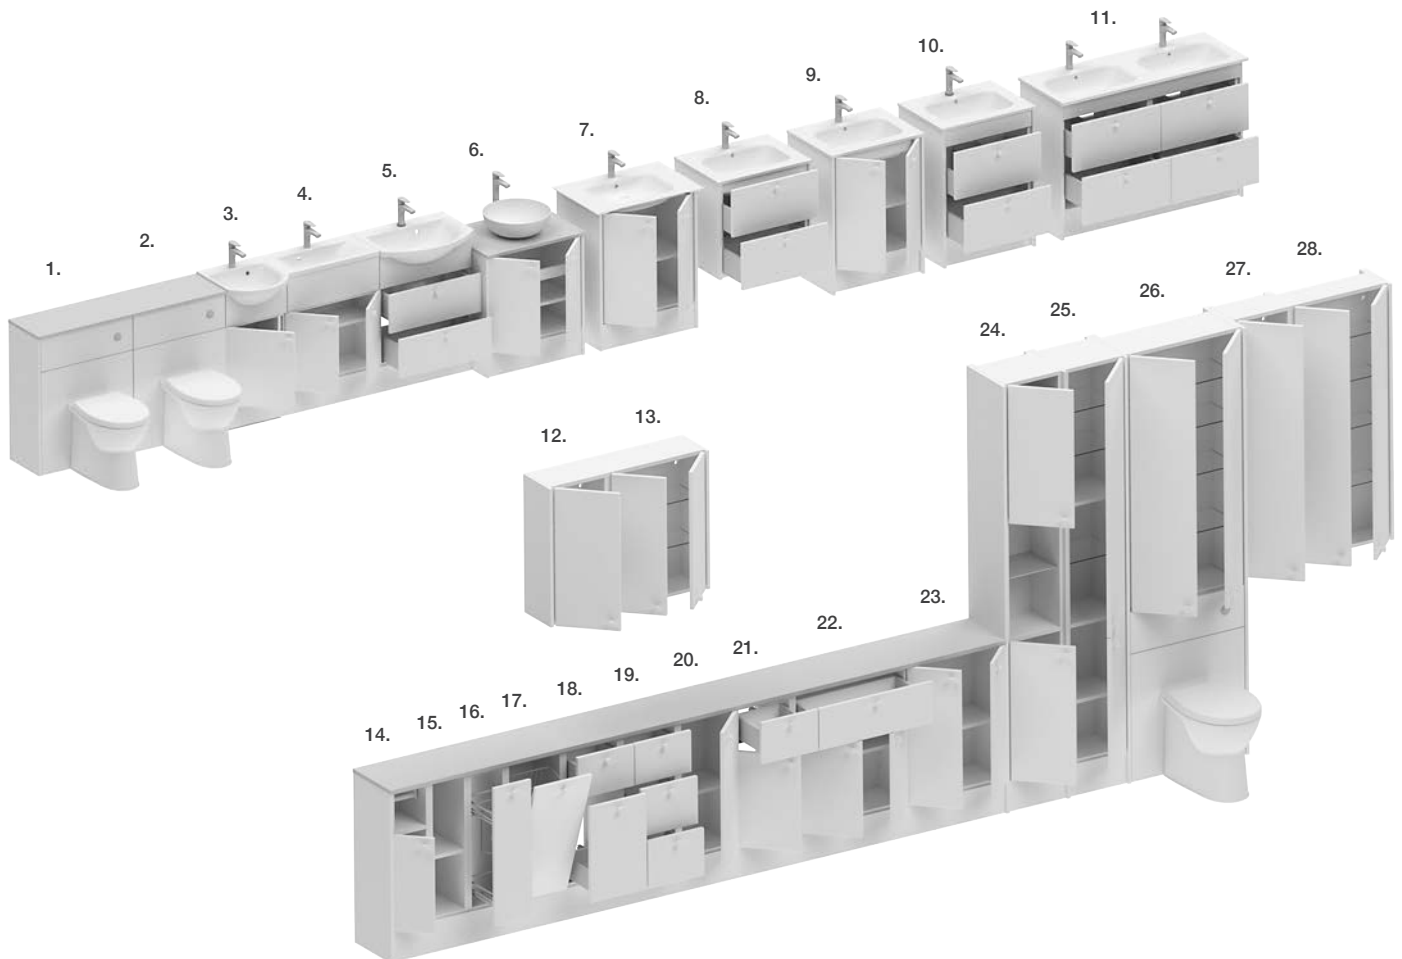

**Ordering Fitted Furniture:** When placing an order, replace the two asterisks (\*\*) in each unit code with the Finish Code located at the top right of the pricing page. This ensures that the correct finish fascia panels are automatically included when ordering complete units.

For a detailed guide on ordering Fitted Furniture, **see page 16**. Alternatively, if ordering individual components, refer to the Fitted Furniture Breakdown **see page 344**. Make sure to specify both the carcass finish code and fascia finish code when placing your order.

## Unit Matrix:

For unit dimensions and pricing breakdown information **see page 344**.

Decorative end panels are designed to cover any visible ends of your furniture. They can also serve as general filler or infill panels, and can be trimmed to the required size. These panels come with finished edges on all sides. However, any edges that are cut during installation must be sealed with a waterproof sealant to preserve the warranty.

Plinth panels are used to cover the gap between the lower part of your furniture and the floor. They attach to the cabinet legs using the provided clips. These panels come with finished edges on all sides, and any edges that are cut must be sealed with a waterproof sealant to maintain the warranty. Please note, when positioning a unit that requires a plinth next to one with a floor-reaching front panel, you should allow an extra 50-100mm in plinth length. This extra length is needed to overlap behind the floor-reaching panel, ensuring all gaps are closed.

# Cheviot

Cheviot emanates pure elegance with its sharp lines and smooth finish. This sophisticated design offers a range of matt finishes accompanied by matching end panels, or gloss options with reversible end panels featuring glass-effect edging for an extra touch of refinement. # Cheviot How to Order

**Ordering Fitted Furniture:** When placing an order, replace the two asterisks (\*\*) in each unit code with the Finish Code located at the top right of the pricing page. This ensures that the correct finish fascia panels are automatically included when ordering complete units.

For a detailed guide on ordering Fitted Furniture, **see page 16**. Alternatively, if ordering individual components, refer to the Fitted Furniture Breakdown **see page 344**. Make sure to specify both the carcass finish code and fascia finish code when placing your order.

Decorative end panels are designed to cover any visible ends of your furniture. They can also serve as general fitter or infill panels, and can be trimmed to the required size. These panels come with finished edges on all sides. However, any edges that are cut during installation must be sealed with a waterproof sealant to preserve the warranty.

For a detailed colour finish guide, see inside front cover.

Plinth panels are used to cover the gap between the lower part of your furniture and the floor. They attach to the cabinet legs using the provided clips. These panels come with finished edges on all sides, and any edges that are cut must be sealed with a waterproof sealant to maintain the warranty. Please note, when positioning a unit that requires a plinth next to one with a floor-reaching front panel, you should allow an extra 50-100mm in plinth length. This extra length is needed to overlap behind the floor-reaching panel, ensuring all gaps are closed.

# Chiltern How to order

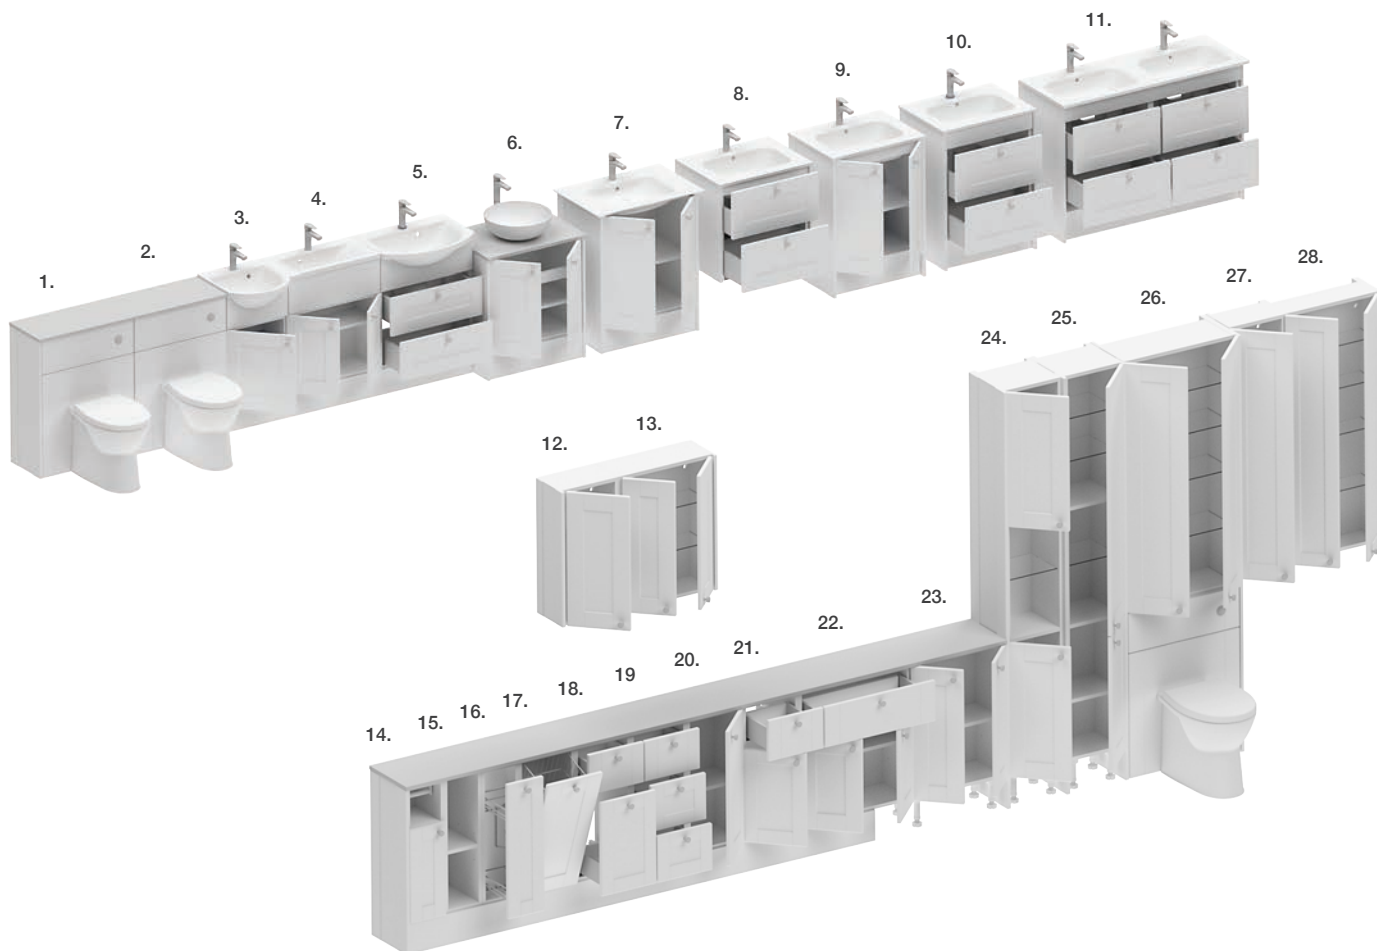

**Ordering Fitted Furniture:** When placing an order, replace the two asterisks (\*\*) in each unit code with the Finish Code located at the top right of the pricing page. This ensures that the correct finish fascia panels are automatically included when ordering complete units.

For a detailed guide on ordering Fitted Furniture, **see page 16**. Alternatively, if ordering individual components, refer to the Fitted Furniture Breakdown **see page 344**. Make sure to specify both the carcass finish code and fascia finish code when placing your order.

## Unit Matrix:

## Chiltern Furniture Details:

Chiltern features 18mm Vinyl wrapped furniture grade MDF shaker style doors and fascia panels. All 18mm ready assembled MFC carcasses with PVC edging. All carcasses and fascias are pre-drilled and marked for fittings. Fully adjustable all-steel soft-close hinges to doors. Soft-close drawer runners with 4-way fascia adjustment. All units come with a wall-fixing kit for safe installation.

Choose from two carcass/plinth heights (661/561mm and 150/250mm) and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

Plinth panels are used to cover the gap between the lower part of your furniture and the floor. They attach to the cabinet legs using the provided clips. These panels come with finished edges on all sides, and any edges that are cut must be sealed with a waterproof sealant to maintain the warranty. Please note, when positioning a unit that requires a plinth next to one with a floor-reaching front panel, you should allow an extra 50-100mm in plinth length. This extra length is needed to overlap behind the floor-reaching panel, ensuring all gaps are closed.

## Dartmoor Furniture Details:

Dartmoor features 18mm vinyl-wrapped furniture-grade MDF slim shaker doors & fascia panels. All 18mm ready assembled MFC carcasses with PVC edging. All carcasses & fascias are pre-drilled & marked for fittings. Fully adjustable all-steel soft-close hinges to doors. Soft-close drawer runners with 4-way fascia adjustment. All units come with a wall-fixing kit for safe installation.

Choose from two carcass/plinth heights (661/561mm and 150/250mm) and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

Plinth panels are used to cover the gap between the lower part of your furniture and the floor. They attach to the cabinet legs using the provided clips. These panels come with finished edges on all sides, and any edges that are cut must be sealed with a waterproof sealant to maintain the warranty. Please note, when positioning a unit that requires a plinth next to one with a floor-reaching front panel, you should allow an extra 50-100mm in plinth length. This extra length is needed to overlap behind the floor-reaching panel, ensuring all gaps are closed.

**Ordering Fitted Furniture:** When placing an order, replace the two asterisks (\*\*) in each unit code with the Finish Code located at the top right of the pricing page. This ensures that the correct finish fascia panels are automatically included when ordering complete units.

For a detailed guide on ordering Fitted Furniture, **see page 16**. Alternatively, if ordering individual components, refer to the Fitted Furniture Breakdown **see page 344**. Make sure to specify both the carcass finish code and fascia finish code when placing your order.

## Kentmere Furniture Details:

Kentmere features 19mm painted and lacquered MDF shaker-style doors and fascia panels. All 18mm ready assembled MFC carcasses with PVC edging. All carcasses and fascias are pre-drilled and marked for fittings. Fully adjustable all-steel soft-close hinges to doors. Soft-close drawer runners with 4-way fascia adjustment. All units come with a wall-fixing kit for safe installation.

The dimensions include a 661mm carcass with a 150mm plinth height, and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

Decorative end panels are designed to cover any visible ends of your furniture. They can also serve as general filler or infill panels, and can be trimmed to the required size. These panels come with finished edges on all sides. However, any edges that are cut during installation must be sealed with a waterproof sealant to preserve the warranty.

Plinth panels are used to cover the gap between the lower part of your furniture and the floor. They attach to the cabinet legs using the provided clips. These panels come with finished edges on all sides, and any edges that are cut must be sealed with a waterproof sealant to maintain the warranty. Please note, when positioning a unit that requires a plinth next to one with a floor-reaching front panel, you should allow an extra 50-100mm in plinth length. This extra length is needed to overlap behind the floor-reaching panel, ensuring all gaps are closed.

# Pentland

The Pentland collection features a traditional and classic style. Explore a variety of elegantly painted and lacquered finishes in Pentland, each feature natural oak finish carcasses that exude an exquisite look and feel. The Calypso washstand is an all-in-one unit featuring the Banari ceramic basin, elegantly styled with Pentland's tongue and groove end panels. Complemented here by the Imola tap, Altos handles, it creates a cohesive and sophisticated look.

○ *Cotton White*

The Pentland collection includes ornamental elements that can enhance the traditional feel of the furniture. In this design, pilasters are used on either side of the basin unit to create a classical aesthetic. The room also features an elegant Elan 500 semi-recessed basin, Grey Terrazzo Calypstone Aura 18mm worktop, Imola tap, Floresta bar handles, Andrina mirror, and a Georgia back-to-wall pan with Cotton White Wentworth seat.

● *Slate*

The Caluso solid surface basin offers incredible versatility, easily cut and shaped to fit Pentland's curved end units. This elegant bathroom design showcases a 600 basin unit gracefully paired with curved end units, complemented by the stylish Avola tap and Altos handles.

# Pentland Fitted Furniture

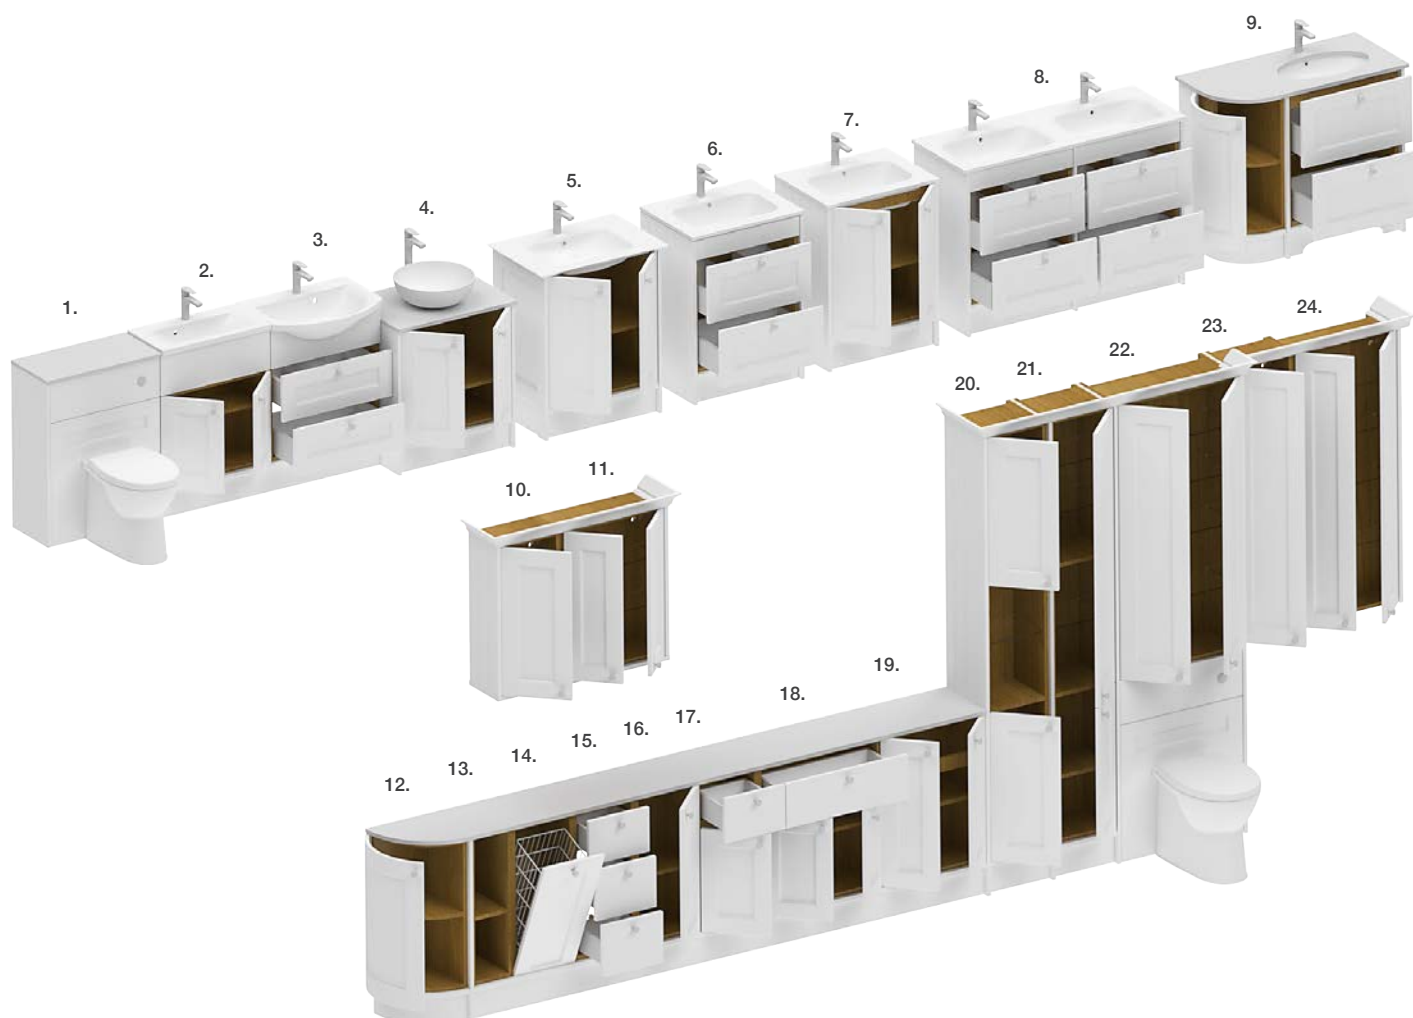

**Ordering Fitted Furniture:** When placing an order, replace the two asterisks (\*\*) in each unit code with the Finish Code located at the top right of the pricing page. This ensures that the correct finish fascia panels are automatically included when ordering complete units.

For a detailed guide on ordering Fitted Furniture, **see page 16**. Alternatively, if ordering individual components, refer to the Fitted Furniture Breakdown **see page 344**. Make sure to specify both the carcass finish code and fascia finish code when placing your order.

## Pentland Furniture Details:

Pentland features painted and lacquered MDF shaker-style doors and fascia panels. 22mm end panels and a two-piece plinth. All 18mm ready assembled MFC carcasses with PVC edging. All carcasses and fascias are pre-drilled and marked for fittings. Fully adjustable all-steel soft-close hinges to doors. Soft-close drawer runners with 4-way fascia adjustment. All units come with a wall-fixing kit for safe installation.

The dimensions include a 661mm carcass with a 150mm plinth height, and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

# Selter Fitted Furniture Collections

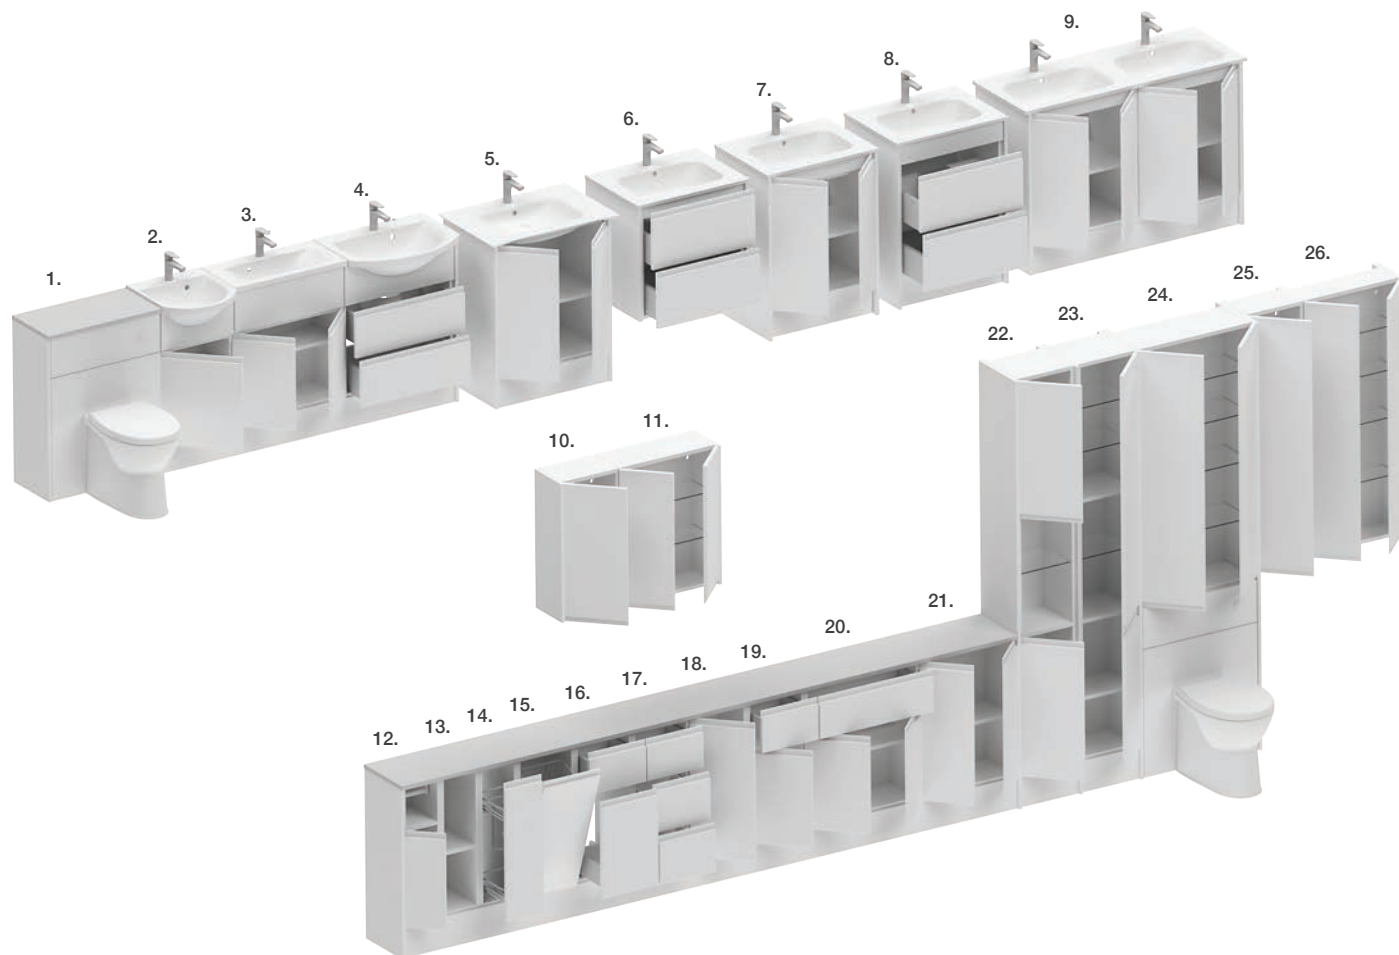

**Ordering Fitted Furniture:** When placing an order, replace the two asterisks (\*\*) in each unit code with the Finish Code located at the top right of the pricing page. This ensures that the correct finish fascia panels are automatically included when ordering complete units.

For a detailed guide on ordering Fitted Furniture, **see page 16**. Alternatively, if ordering individual components, refer to the Fitted Furniture Breakdown **see page 344**. Make sure to specify both the carcass finish code and fascia finish code when placing your order.

## Selter Furniture Details:

Selter features robust 19mm painted and lacquered MDF doors and fascia panels with integrated handles. The 19mm ready-assembled MFC carcasses, edged with PVC, provide durability. All units have pre-assembled carcasses with PVC edges, pre-drilled for easy setup. Doors have fully adjustable all-steel soft-close hinges and soft-close drawer runners with 4-way fascia adjustment. All units come with a wall-fixing kit for safe installation.

The dimensions include a 661mm carcass with a 150mm plinth height, and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

Plinth panels are used to cover the gap between the lower part of your furniture and the floor. They attach to the cabinet legs using the provided clips. These panels come with finished edges on all sides, and any edges that are cut must be sealed with a waterproof sealant to maintain the warranty. Please note, when positioning a unit that requires a plinth next to one with a floor-reaching front panel, you should allow an extra 50-100mm in plinth length. This extra length is needed to overlap behind the floor-reaching panel, ensuring all gaps are closed.

## Solid Oak Furniture Details:

Doors are constructed with a solid oak frame and real oak veneer centre panel. 150mm and 200mm doors have a slightly narrower frame. Plinths, end panels, and worktops are real oak veneer on furniture-grade MDF core. All units have pre-assembled carcasses with PVC edges, pre-drilled for easy setup. Carcasses are 18mm ready-assembled MFC with PVC edging. Doors have fully adjustable all-steel soft-close hinges and soft-close drawer runners with 4-way fascia adjustment. All units come with a wall-fixing kit for safe installation.

Choose from two carcass/plinth heights (661/561mm and 150/250mm) and three base unit depths (218mm, 303mm and 443mm). Standard depth units with a width of 300mm or more and slimline units of 400mm or more have a 50mm service space at the rear of the unit, units narrower than these sizes and units with a drawer do not have a service space. Not for wet rooms; suitable for well-ventilated bathrooms.

Note: Solid Oak and Oak Veneer are natural products which may vary in shade and grain structure. Once installed, the finish will age and change over time based on light and moisture exposure.

## Worktops

An oak veneer edging strip is to be used if the worktop needs to be cut to length and the cut end is exposed, the edging strip is supplied raw and will require finishing to match the oak worktop. The edging strip will always be wider than the product that is being edged, this is for application and trimming to a perfect finish.

# Vanity Collections

Our Vanity collections are smaller collections that feature standalone units complemented by additional pieces offering stylish and functional solutions for your bathroom.

This guide will walk you through the straightforward steps to select & order your vanity unit, to simply elevate your bathroom experience.

## How to Order:

### Choose Your Unit:

Browse our vanity collection to find the perfect vanity for your bathroom. You will find the kit code listed below the vanity. All units come pre-assembled with a wall fixing kit for installation.

### Add a Basin:

Compatible basins are listed below each vanity and may fit slightly wider than the unit.

The sit-on basins shown are the recommended size and require a worktop. All sit-on basins are universally compatible, but ensure your chosen basin fits your unit's dimensions. Some vanity units need specific worktops, which are available on the collection pages.

For most basins with an overflow, you can change the colour of the overflow ring. For more information on basins, worktops, and overflow rings, refer to our accessories section starting on **page 286**.

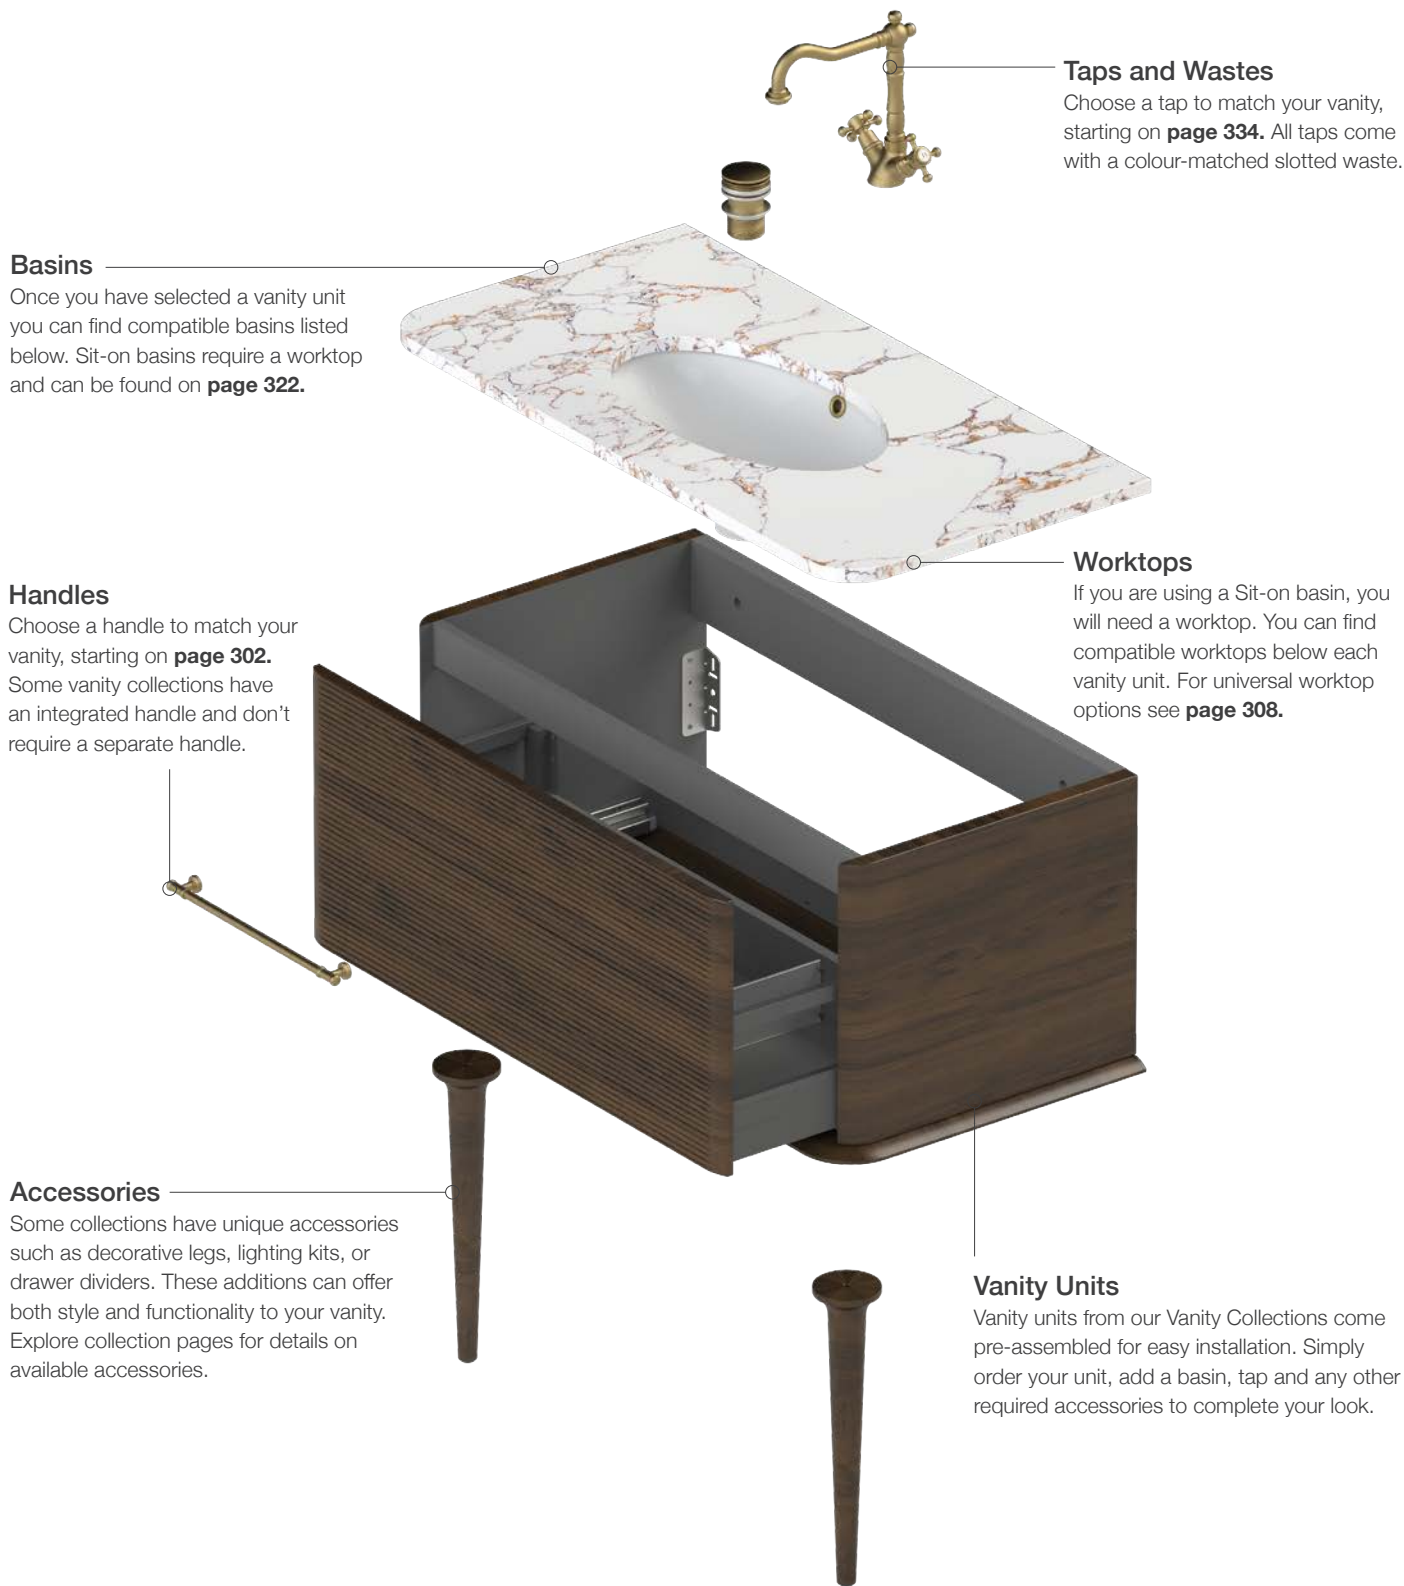

### Select a Finish:

Each collection is shown in one finish, with all available finishes listed below the vanity with the respective codes.

### Add Accessories:

Vanity units are shown with taps, and if applicable, handles. All additional accessories can be found in our accessories section starting on **page 286**. Some collections offer additional elements to enhance the overall aesthetic or functionality of your furniture and these can be found in the collection pricing pages where available.

### Taps and Wastes

Choose a tap to match your vanity, starting on **page 334**. All taps come with a colour-matched slotted waste.

### Basins

Once you have selected a vanity unit you can find compatible basins listed below. Sit-on basins require a worktop and can be found on **page 322**.

### Worktops

If you are using a Sit-on basin, you will need a worktop. You can find compatible worktops below each vanity unit. For universal worktop options see **page 308**.

### Handles

Choose a handle to match your vanity, starting on **page 302**. Some vanity collections have an integrated handle and don't require a separate handle.

### Accessories

Some collections have unique accessories such as decorative legs, lighting kits, or drawer dividers. These additions can offer both style and functionality to your vanity. Explore collection pages for details on available accessories.

### Vanity Units

Vanity units from our Vanity Collections come pre-assembled for easy installation. Simply order your unit, add a basin, tap and any other required accessories to complete your look.

## Assembly Instructions:

Every unit in our vanity collection comes pre-assembled as a complete unit to simplify the installation process, saving you time and effort.

We recommend using a professional bathroom installer for vanity unit installation to ensure optimal results.

# Worktops

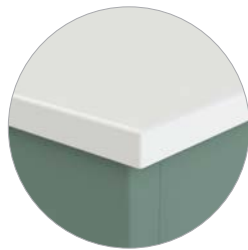

Choosing the perfect worktop to complement your bathroom furniture is a crucial step in your design process. To assist with this, we stock worktops in various types, lengths, and depths to suit the diverse sizes of furniture we offer. These are categorised as follows:

## 1. Worktops for Fitted Furniture

Our range of worktops is available in three depths to match our fitted furniture: Slim depth (230mm), Standard depth (315mm), and Deep (460mm). These worktops come in various lengths, which can be cut Works With the specific layout of your bathroom furniture. Additionally, matching edging strips are available for re-edging any exposed cut ends.

Cast Marble

Calypstone Aura Solid Surface

Postformed Laminate Worktops

## 2. Worktops for Vanity Units

Most of our vanity unit ranges come in standard widths of approximately 600mm, 800mm, and 1200mm. We stock a range of standardised vanity worktops to suit these sizes, providing a small overhang as a safety margin. Worktops for non-standard sized or uniquely shaped vanity units will be listed on the pages where those vanity units are displayed.

# Calypstone Aura Worktops

Calypstone Aura solid surface worktops are made from a composite material comprising a natural compound and a high-quality acrylic based polymer binder which creates a surface with the look and feel of natural stone such as granite and marble. It is warm to the touch, 100% nonporous and has the benefit of being able to be cut, sawn, shaped, and worked on using standard woodworking tools.

## Hygienic

The Calypstone Aura material contains an antibacterial agent that destroys bacteria and prevents its growth to act as a disinfectant on its own surface. This makes it perfectly suited to bathroom surfaces, and means it can also be used in healthcare and food preparation areas.

## Durable

You can look forward to many years of service from Calypstone Aura worktops. The material does not degenerate naturally nor fade, and if well cared for, will continue to look as good as the day it was installed.

## Eco Friendly & Non Toxic

Calypstone Aura is made using 40% recycled material and is itself 100% recyclable. It is a fully stable material and cutting and sanding it does not release any volatile or toxic organic compounds into the atmosphere. The material is also self-extinguishing, and in the event of contact with fire, no toxic gases are released

## Easy Clean

The inherent properties of Calypstone Aura make it very easy to clean and maintain. It is resistant to most household chemicals and disinfectants and is best cleaned simply with warm soapy water and then dried and buffed with a soft microfibre cloth.

Full care instructions are supplied with each worktop.

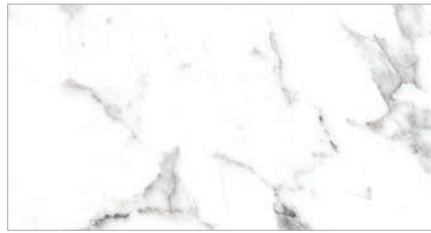

# Postformed Laminate Worktops

A solid particle board core, bonded with high-pressure laminate (HPL), creates a durable worktop. These worktops are supplied in 22mm Postformed (rounded) front edge designs with comprehensive sealing on all surfaces and edges. For custom lengths and exposed cut ends, matching edging strips are also provided.

## Oak Veneered Worktops

A real oak veneer is laid on an MDF core and sealed on the underside and edges to form these worktops. The front edge is lipped with a 3mm solid oak strip to provide extra protection against knocks. An oak veneer edging strip is also available separately if the worktop needs to be cut to length and the cut end is exposed, the edging strip is supplied raw and will require finishing to match the oak worktop.

# WCs

---

Our WCs feature high-quality ceramic construction, ensuring reliability and longevity. The top-fix seat design facilitates simple installation and lifts off for easy cleaning. All Calypso WCs come with a silent soft-close seat which provides added convenience and comfort.

---

## Back To Wall

Back to Wall pans are designed to be used with cisterns that can be concealed within a cabinet or behind a wall. They can be matched with your chosen furniture to create a cohesive and sleek aesthetic.

## Close Coupled

Close coupled WCs are a popular choice for modern bathrooms due to their simple design and streamlined appearance. This type of WC features a cistern that is directly attached to the back of the bowl, making maintenance straightforward.

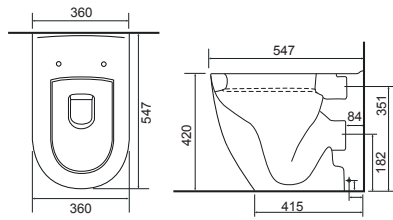

## Wall Hung

Wall hung WCs can be attached to a frame within a cabinet or behind a wall. This makes cleaning easier and lends a sense of openness to the bathroom.

## WHAT IS A RIMLESS PAN?

Traditional toilets distribute the flush water through a series of holes around the underside of the rim of the pan. However, the 'Rimless' pan does away with this under-rim, meaning the water can flow faster and with no hindrance to creating an enhanced flush.

The rimless toilet looks no different on the outside. The main difference is that the pan boasts a smooth bowl with reduced areas for bacteria or lime-scale to build up and settle, which makes a significant difference for cleaning and improved hygiene compared to traditional pans.

### HIGHEST STANDARDS OF HYGIENE

No hidden spaces for germs to harbour.  
Allows for easy cleaning.

### PERFECT CLEANING

Unique flush system means the water flows both vertical and around the rim covering the entire surface.

### QUIETER & FASTER

Rimless technology allows for a more silent and faster flush than standard WC pans.

# Basins

Whether you're looking for a sleek modern basin or a more traditional style, our selection caters to every aesthetic with both ceramic and cast marble options to suit your desired look. Explore our range of sit-in, sit-on, block, semi-recessed and one-piece wing basins.

## CM Cast Marble

Our Cast Marble basins are crafted from Dolomite Marble, a substance born from volcanic processes. Through milling, purification, and blending with polymer resin, they take shape before a protective layer of resin and quartz gel coating is applied, preserving both pigment and achieving a flawlessly smooth, durable and easy to maintain finish.

## CE Ceramic Basins

Ceramic basins are meticulously crafted from molten fireclay, shaped into moulds, and expertly glazed before undergoing the final firing process. Their enduring quality makes them suitable for both contemporary and traditional bathroom settings. Ceramic is easy to maintain, as stains can be effortlessly removed, ensuring a pristine appearance.

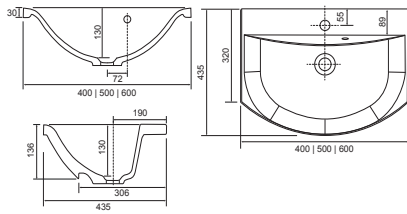

## SS Solid Surface

Solid surface basins are made from a composite material that mimics natural stone, providing a strong, smooth, and practical choice for bathrooms. Their easy-to-maintain and durable nature makes them ideal for daily use. Solid surface wing basins can be cut and shaped using standard woodworking tools, making them an excellent option for curved units.

## How to Order Guide: Overflow Rings

When it comes to basins, getting the details right can make all the difference, especially when you're matching them with brassware and handles. That's where understanding overflow rings becomes essential. These rings not only ensure your basin works properly but also play a role in enhancing its overall look and feel.

Use the table below to find the right overflow for your basin and then choose the colour that best matches your bathroom:

### Basins with no overflow:

These basins do not have an overflow. Therefore, there's no need for an overflow ring. We recommend using a free-flowing unslotted waste with these basins.

### Basins with built-in overflow:

Some basins come with an overflow that is glazed or designed as an integral part of the basin. In such cases, an overflow ring does not apply.

### Basins with a standard overflow:

These basins come with a chrome overflow ring as standard. However, the overflow ring is interchangeable, meaning you can change it to match your bathroom.

# Taps

Calypso taps are meticulously crafted for precision and engineered for long-lasting durability. Our range includes basin-mounted, wall-mounted, and tall basin taps for use with sit-on bowls. All Calypso taps feature quarter-turn ceramic disc valve technology, allowing for ultra-smooth control of water flow and temperature, ensuring the tap's longevity. Each tap is coated with a robust anti-scratch finish, guaranteeing a lasting pristine appearance. Additionally, all of our taps come with a slotted waste that is colour-matched to the tap's finish.

## Brassware Accessories

Our wastes come in two types: slotted and unslotted. If your basin has an overflow, you will need a slotted waste. If your basin does not have an overflow, such as a sit-on basin, you will need an unslotted waste.

## What is an LED Lighting Strip?

Using an LED lighting strip in your bathroom can enhance both functionality and ambiance. You can install LED strips under cabinets to illuminate the countertop, around the back of mirrors for even lighting, or along the ceiling edges to highlight architectural features.

Supplied in three popular length kits, these lighting strips can be cut to fit any size of unit. The special 3M self-adhesive backing tape allows you to stick them to almost any surface with ease.

# Zoned Lighting

Water and electricity are a dangerous combination so when choosing bathroom lights it is essential that you familiarise yourself with two terms; Bathroom Zones and IP Ratings. When purchasing bathroom lights you need to ensure that the fitting you choose has the relevant IP rating for the zone in which it is to be placed. So what are IP Ratings and Bathroom Zones?

IP RATING 1ST DIGIT			IP RATING 2ND DIGIT		
OBJECT SIZE	PROTECTED AGAINST		PROTECTED AGAINST	TESTED FOR	
0	-	NO PROTECTION.	0	-	NO PROTECTION
1	>50 MM	PROTECTION AGAINST ANY LARGE SURFACE AREA OF THE BODY BUT NOT DELIBERATE TAMPERING OR FORCE.	1	DRIPPING WATER	DRIPPING WATER – NO DAMAGING EFFECT WHEN TESTED AGAINST VERTICAL FALLING WATER DROPS.
2	>12.5 MM	FINGERS OR SIMILAR SIZED TOOLS AND OBJECTS.	2	DRIPPING WATER WHEN TILTED UP TO 15°	VERTICALLY DRIPPING WATER HAS NO DAMAGING EFFECT WHEN THE LIGHT ENCLOSURE IS TILTED AT AN ANGLE UP TO 15° FROM ITS USUAL POSITION.
3	>2.5 MM	THICK WIRES, TOOLS AND SIMILAR-SIZED FOREIGN BODIES.	3	SPRAYING WATER	WATER FALLING AS A SPRAY AT ANY ANGLE UP TO 60° HAS NO DAMAGING EFFECT.
4	>1 MM	MOST WIRES, SCREWS, ETC.	4	SPLASHING WATER	WATER SPLASHING AGAINST LIGHT ENCLOSURE FROM ANY DIRECTION HAS NO DAMAGING EFFECT.
5	DUST PROTECTED	Protected against dust, allowing limited ingress. (no harmful deposit)	5	WATER JETS	WATER PROJECTED BY A NOZZLE (6.3MM) AGAINST LIGHT ENCLOSURE FROM ANY DIRECTION SHALL HAVE NO DAMAGING EFFECT.
6	DUST TIGHT	Dust tight. No ingress of dust.	6	POWERFUL WATER JETS	WATER PROJECTED IN POWERFUL JETS (12.5MM NOZZLE) AGAINST THE LIGHT ENCLOSURE FROM ANY DIRECTION HAS NO DAMAGING EFFECT.
			7	IMMERSION UP TO 1M	WATER WON'T INFILTRATE EVEN WHEN LIGHT ENCLOSURE IS IMMersed IN WATER UP TO 1M IN DEPTH. DURATION OF UPTO 30 MINUETS.
			8	IMMERSION BEYOND 1M	THE EQUIPMENT IS SUITABLE FOR CONTINUOUS IMMERSION IN WATER UNDER. CONDITIONS SPECIFIED BY THE MANUFACTURER.

**IP 67**

IP67. The item is protected from dust and capable of withstanding water immersion upto 1 meter for 30 minutes.

**ZONE 0** Covers the areas inside the bath or shower tray. If you decide to illuminate this area the fittings must be low voltage and must have a minimum rating of IP67 making them immersion proof.

**ZONE 1** Incorporates the area directly above the bath or shower tray to a height of 2.25m from the floor. A light with a minimum IP44 rating is required for this area. If the light uses a 240V supply, a 30ma RCD (residual current device) must be used to protect the circuit in this zone.

**ZONE 2** Covers the area 0.6M outside the bath's perimeter and to a height of 2.25M from the floor. As with Zone 1, a minimum IP44 rating is required for this area.

**ZONE 3** Outside zones cover areas which fall outside of zones 0,1 and 2 and are well away from any contact with water. No IP ratings are required for light fittings in this area.

Installation must be made in accordance with the current IEE wiring regulations and relevant building regulations. Calypso recommends that all electrical bathroom products should only be fitted by a suitably qualified Part P registered electrician.

# Corner Layouts & Bath Bulkheads

With limited storage space in modern bathrooms the use of corners is becoming ever more popular.

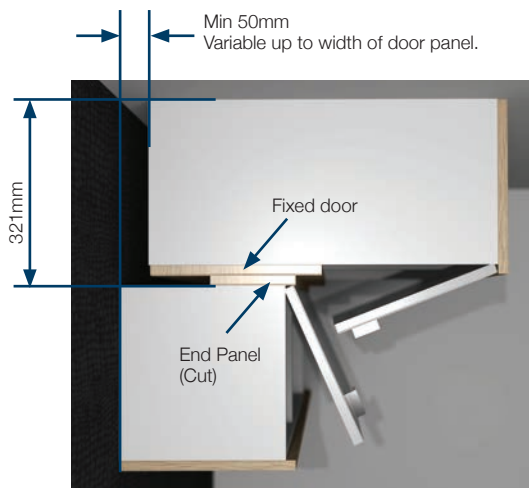

Below illustrates some common corner layouts for you to consider when planning your bathroom furniture.

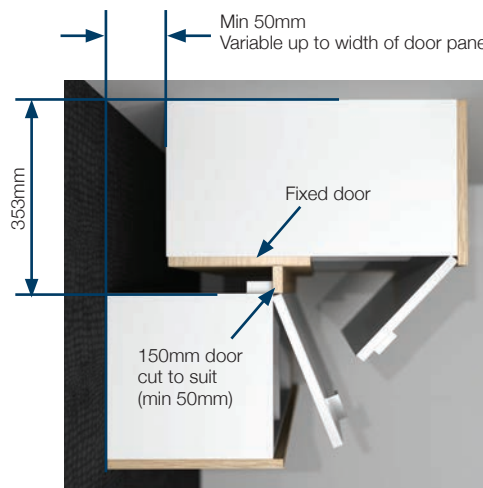

Layout 1: Suitable for doors only.  
(Using end panels in corner)

Layout 2: Variable.  
Suitable for drawers (Using end panels in corners).

Layout 3: Variable.  
Suitable for 2 door units only - using an end panel in the corner.

Layout 4: Variable.  
Using door panels for corner. Plinth runs through.

The bath bulkhead unit has a full floor to worktop panel (3008) matched to your chosen fascia, supplied with either a slimline or standard depth 600mm WC carcass. However, the panel will work with any width WC Carcass, and can also be used as a fitters panel.

# Calypso/Notes

## Important Notes

It is important when ordering and booking installations that sufficient time is allowed between product delivery date and installation date. This is for the checking of goods and if required, the re-delivery of any rejected or damaged items.

When planning, remember to allow for décor end panels for any exposed end-of-run base or wall unit carcasses, adding 18mm for each end panel required.

All our door finishes are supplied by default with the complimenting carcass colours as indicated on the inside front cover of this brochure. If a different mix of fascia and carcass finishes is required, they will have to be specified separately using the individual product codes shown within the pricing areas of this catalogue. The relevant

finish codes need to be added to each product code at the time of ordering. All stocked products are dispatched within 72 hours of ordering.

Our 250mm plinth can also be used as flyover shelving if cut lengthwise down to 220mm. All carcasses are supplied ready assembled, with door and fascia panels packed separately for fitting once carcasses are installed to help avoid damage. Door and drawer fronts are supplied undrilled for handles to give maximum flexibility and choice.

Slimline basin units in bathrooms will require reduced-depth semi recessed basins.

Calypso units are designed at a height to allow good access underneath the carcasses to run the soil pipe and water feeds with a choice of 150mm or 250mm plinths.

Due to space restrictions on slimline units, the rear legs should be removed to run a soil pipe through, and rigidity is maintained by the front legs and wall fixing.

All our concealed WC cisterns are suitable for front access servicing. If other manufacturer's concealed cisterns are used, service access may become a problem.

Prices in this catalogue include VAT at 20%.

## Product Notes & Specifications

Please note that some of the imagery within the brochure is CAD generated and may not reflect the unit exactly. We strongly recommend that any questions relating to detail of any units are asked prior to ordering.

Carcasses – All carcasses & fascias pre-drilled & marked for fittings. Fully adjustable all-steel soft-close hinges to doors. Soft-close drawer runners with 4-way fascia adjustment. All carcasses are supplied with hinges, wall fix brackets and fittings, and base units come with adjustable legs and plinth fittings. All plinths, end panels and handles must be ordered separately. Unit dimensions given are overall including fascias but exclude legs (661mm units supplied with 150mm legs, 561mm units supplied with 250mm legs). Choice of three finished base unit depths (218mm, 303mm & 443mm). All carcasses are made from 18mm MFC with PVC edging.

Vinyl Wrapped Doors/Worktops/Plinths/End Panels – All vinyl panels are a vinyl wrap on an MDF core. Doors, facias, plinths and end panels have an 18mm furniture grade MDF core, and vinyl worktops have a 22mm core. Any exposure of the MDF core

through cutting must be sealed with a proprietary sealant such as PVA or silicone to maintain the warranty. Printed colours and woodgrains are subject to print and screen variations and are for illustration purposes only.

Please call sales on 01432 367 367 to request a sample for exact colour matching prior to ordering.

Cast Basins – All Calypso cast basins are made from a mineral powder/polyester resin. The surface is protected by gelcoat which is at least 0.5mm in thickness. Clean and care for your top with a normal liquid detergent (do not use detergents containing abrasives) and buff with a good quality polish to keep your cast top in tip-top condition.

Postformed Laminate Worktops – Laminated on to a chipboard core, all worktops are supplied with a length of edging for re-sealing when cut.

(Additional edging strips are available on request, priced per metre).

Solid Oak – Doors and bath panels in this range have 70mm x 20mm solid oak frames and an oak veneered centre panel. All worktops, plinths and end panels are real oak veneer on an MDF core. If uncertain on veneered areas on the Solid Oak range please refer to our technical team on 01432 367 367. Please note: In purchasing this product you are aware that natural variations which are inherent in the shade and grain of naturally grown solid oak and oak veneer are beyond our control.

Bath Panels – These are supplied in two lengths of 1700mm or 1800mm.

DIMENSIONAL TOLERANCE - Due to the nature of materials and production processes, dimensions may vary within a tolerance of ± 2mm on furniture, ± 3mm on cast basins and ± 5mm on ceramic.

## Returns Policy

Any damaged or unwanted items must be reported within 7 days and made available for collection within 28 days. Any items ordered and delivered in good faith but no longer required will be subject to a 25% handling and re-stocking charge.

Non-required items can only be accepted for return if:

- They are returned in original packaging.
- They have not been fitted in any way (this would include legs fitted onto carcasses).
- They are in re-saleable condition.

Picking or Delivery Errors & Manufacturing Defects must also be reported within 7 days and made available for collection within 28 days.

Credit will be given once the goods are received back, inspected and signed off.

Any good under this policy should be returned to the retailer that they were purchased from.

Credit Approval or Refusal:

Once returned goods are received and inspected as per terms above, credit will either be approved or refused. If refused, a credit refusal number is assigned and a written reason given and sent by fax or email. Goods will then be held for 7 days before disposal. Any query regarding the refusal must be logged during this 7 day period.

## Taking Care of Your Calypso Products

By following some simple care and cleaning guidelines, Calypso products can be expected to give many years of enjoyable, trouble-free service.

Calypso bathroom furniture is designed to be used within domestic environments. As with all timber products, adequate ventilation is key and your bathroom furniture will be adversely affected if subject to excessive moisture on the surface or in the atmosphere. It is strongly recommended that a suitable bathroom extractor fan is installed to prevent condensation building up and to prevent damage to the furniture.

Calypso timber based fitted furniture should only be installed within a well ventilated bathroom environment and is NOT suitable for installation in wet-rooms.

It is most important that any cut or exposed panel edge, and any floor or wall abutment with furniture or sanitaryware, must be sealed

with a waterproof sealant such as silicone or similar to avoid the possibility of water ingress and damage.

All water spills and sprays must be wiped clean and mopped dry immediately to prevent water marks or other damage.

Never use chemical or abrasive cleaners, bleach or furniture polishes on any bathroom furniture as the finish can be affected. Clean only with a soft damp cloth and a mild soap solution as necessary.

Solid Oak is a very hard-wearing material and its looks are enhanced with wear over the years. Occasional application of a wax-based furniture polish should be all that is needed to maintain its finish. DO NOT USE household cleaners or abrasive powders on oak, and remove any spills or stains immediately with a soft damp cloth and mild detergent (washing-up liquid). Excessive moisture or water spills will darken the oak surface.

CERAMIC SANITARYWARE - Clean with a damp cloth and warm soapy water. Rinse with clean water and polish with a soft cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

BRASSWARE - Clean with a damp cloth, rinse clean and polish with a dry cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

COLOUR REPRODUCTION - Colour reproduction is as accurate as possible within the limitations of the printing process. A free sample service is provided if you are unsure about the finish on your selected product. Please call sales on 01432 367 367 to order. Also note, colours will vary under artificial light.

Our company policy is one of continual improvement and development. We therefore reserve the right to alter materials and specifications without notice.

All orders are subject to our standard terms and conditions of sale which can be found at [www.calypsobathrooms.co.uk/terms](http://www.calypsobathrooms.co.uk/terms)  
A hard copy of our terms and conditions is available on request by calling us on 01432 367 367 or emailing your request to [sales@woodstockco.com](mailto:sales@woodstockco.com)
